M/s Indian Oil Corporation Ltd.

Dear Sirs,

We are pleased to inform you that our sole Indian licensee, M/s Tema India Ltd has successfully completed 7 nos. DEU Screw plug H.P. Exchangers for IOCL Haldia Refinery.

These Exchangers with complex metallurgy have been produced to high quality standards under U- STAMP and 3rd party inspection of M/s Lloyds with stringent requirements such as Helium leak test etc.

In the course of our interaction with Tema, we find their caliber in both design and manufacturing to be amongst the best in the industry.

In fact, the forming of small diameter and thick wall clad shells at their works with high accuracy has far exceeded all our expectations, as has the accuracy in their thread cutting, smooth screw plug assembly and their welding techniques.

The dedicated team efforts of their engineers and technicians have resulted in mastering the art of producing these exchangers to our latest "Screw plug" technology.

We now wish them total success in their forth coming ventures and needless to say that they have our full support to help produce quality products.

Sincerely

CHARLES H. RUSHING
